What activity or aspect of the course was most effective?

Comment

Interacting with the professor and she is very approachable

Prof. Trotman provide several exercises and activities related to enhancing our critical writing skills. Identifying and Narrowing down a topic, formulating a thesis statement , research for a literature review, APA and organizing and formulating my thought into an well written paper. Each activity enhanced the progression of understanding how to be a better writer.

The course was effective in the area of formatting and learning about the outline of an academic paper and how crucial it was to create a paper of understanding structure.

this class was wonderful and helpful. Sadly i had to withdraw from this class in October due to work.

This course was very good. I learned how to properly write an research paper

What activity or aspect of the course was least effective?

Comment

Every activity was effective

I don't think there was a least effective activity .

Really there was no area that I could say was least effective to me. However, there were some areas that I got confused in like the (articles) we had to compare our writing too.

Any additional comments?

Comment

I thought Prof Trotman taught this course very well. She was willing to listen and provide feed back on how I could improve my writing. The course was very intense but it was well worth the experience. I believe I learned to become much more critical with my writing.

Professor A. Trotman is an intelligence and delightful professional woman who I would not mind taking another class with her. She is fair and honest with her students.

What was something that I did as a professor that DID NOT help you learn?

Comment

Everything was fine.

No, you provided every me with every opportunity to improve my writing skills.

Professor in the time i was attending was great.

What was something that I did as a professor that DID help you learn?

Comment

Help me correct my errors and explaining the assignment more in depth.

You encouraged me to be creative,by learning when to use Logos, Pathos and Ethos, and how t can use them to become a better writer.

My professor help me how to properly write in APA format which I think is very beneficial to me
